## Software Programmer - Java

Sheffield, UK | +44 7979419929 | rameshkeerthana444@gmail.com

**Right to work in the UK - No sponsorship required**

### PERSONAL STATEMENT

---

Reliable and personable professional with hands-on customer service experience and hands-on technical training in Python, cloud development and Java. Skilled at communicating clearly, resolving problems calmly and working effectively as part of a team, alongside practical exposure to machine learning, cloud platforms and software development through internships and training programmes. Currently completing an MSc in Information Technology Management, which has strengthened both written communication and IT skills. A quick learner who adapts easily to new tools, environments and demands, seeking to bring a strong work ethic and a blended customer service and technical skill set to a new role.

### KEY SKILLS

---

- Excellent verbal and written communication skills, with a clear and professional manner
- Patient, calm and resilient when handling challenging situations or unhappy customers
- Working knowledge of Python programming, including exposure to machine learning concepts
- Foundational cloud development knowledge gained through structured training
- Exposure to Java programming and software development fundamentals
- Comfortable using computer systems for data entry, email and e-learning; working knowledge of Microsoft Office 365
- Strong active listening skills and ability to explain information clearly and concisely
- Flexible and organised; able to prioritise tasks and adapt to a changing environment
- Reliable team player, used to working to standards and procedures in fast-paced settings

### WORK EXPERIENCE

---

#### **Machine Learning Intern** | Glovish Technologies | Nov 2022 - Mar 2023 | Bengaluru, India

- Completed a 4-month internship on a project to predict stock market trends using machine learning
- Built and tested machine learning models to analyse historical data and identify trend patterns
- Worked with Python and data analysis tools to prepare, clean and process datasets
- Collaborated with a project team to document findings and present results clearly

#### **Crew Member (Part Time)** | Subway | May 2025 - Present | UK

- Provide friendly and efficient customer service during high-volume periods, staying calm and organised under pressure
- Work closely with a team to ensure smooth, timely service while maintaining consistent standards
- Follow clear procedures and instructions accurately, escalating problems appropriately when needed

#### **Primary School Teaching Assistant (Part Time)** | Primary School | Jan 2025 - Aug 2025 | UK

- Supported primary-aged children and communicated daily with children, parents and staff in a calm, patient and encouraging manner
- Adapted communication style to different audiences and checked understanding, building confidence in explaining things clearly
- Built reliability, patience and adaptability while working within a structured, procedure-led setting

### TRAINING & CERTIFICATIONS

---

#### **Advanced Python Training Programme** | Glovish Technologies | 2022 - 2023 | Bengaluru, India

- Completed an advanced-level training programme covering Python programming concepts and applications

#### **Cloud Developer Training** | Reddington (AISECT) | Apr 2023 - Jul 2023 | India

- Completed a 3-month structured training programme focused on cloud development fundamentals and tools

**Software Programmer - Java Course** | Accenture | 2023 - 2024 | India

- Completed a software programming course covering Java fundamentals and application development

**Future Skills, Python Programming & Artificial Intelligence** | Nesscom Foundation | Bengaluru, India

- Completed training covering future-ready digital skills, Python programming and artificial intelligence fundamentals

## EDUCATION

---

**MSc Information Technology Management** | Sheffield Hallam University, UK | Jan 2025 - Present

- Relevant modules: Enterprise Management Project (EMP), IT Strategy, Project Management, Database Management Systems (DBMS), Data Mining, Advanced SQL
- Dissertation: Evaluating the Role of Information and Technology in the Digital Transformation of the Healthcare Sector in India

**Bachelor of Computer Applications** | Bengaluru City University, India | Sep 2020 - Aug 2023

## ACADEMIC PROJECTS

---

**Enterprise Management Project (EMP) - SAP Enterprise Systems Analysis** | Sheffield Hallam University, UK

- Analysed business module management using SAP S/4HANA as part of the MSc Enterprise Management Project
- Covered enterprise architecture, digital transformation and SAP functional modules
- Evaluated how enterprise systems support business process integration and organisational decision-making
